

# AL-AMIN

Web Developer

## PROFILE

As a Laravel developer, I specialize in building robust web and application solutions using technologies such as Livewire, Alpine.js, Tailwind CSS, React JS, PHP, and Bootstrap. With experience in creating feature-rich applications, I have successfully developed Progressive Web Apps (PWA), Single Page Applications (SPA), and projects with multi-theme support, dark mode, multi-language options, SEO optimization, multi-role functionality, and responsive design. My focus is on delivering user-friendly applications with enhanced performance, and I am proficient in integrating Socialite for authentication features.
